SEPTEMBER 2020 • ISSUE 4

The Office of Sustainability at Southern Illinois University is partnering with Trajectory Energy Partners and Nexamp to host a webinar via Zoom to learn more about Illinois Solar for All (ILSFA). There will also be an opportunity to learn about a program that offers eligible Illinois residents who are Ameren customers an opportunity to save 50% on their Ameren Purchased Electricity Supply Charge while also supporting local solar energy generation and Community Solar. Join us on Tuesday, Oct. 8, at noon to learn about this opportunity. Find out more information as well as registration by clicking the link, "[Solar for All](#)".
